Vanquish® S-Series

Seismic NEBS Zone 4 Racks

Overview

The Vanquish® S-Series Seismic cabinet is a NEBS Zone 4 certified rack for extreme load conditions.

The fully welded frame structure has been seismically tested and officially certified by an independent laboratory.

The rugged design is engineered to perform in areas of high seismic activity and vibration.

Designed in the UK under ISO 9001.

Technical Details

- NEBS GR-63-CORE Zone 4
- ETSI EN 300 019-2-3 v2.4.1
- Tested with 500kg load
- 47U x 600W x 300/600/800/1000D
- Colour options on request
